ONLINE BUSINESS MATCHING

In the Post Covid-19 era, an international trade has shifted to a digital economy trading model making e-commerce trends become even more important. Notably, the Online Business Matching (OBM) has gained more significance as it helps manufacturers and exporters to reach the overseas target markets, both the existing target markets and the new target markets. The Online Business Matching activity is not only empowering potential Thai lifestyle and fashion crafters but also efficiently boasting export.

The Department of International Trade Promotion (DITP), by the Office of Lifestyle Trade Promotion is organizing the Online Business Matching, to provide marketing channel showcasing the potential of Thai entrepreneurs to foreign buyers and importers. The OBM activity also an important trade platform for Thai entrepreneurs to have the opportunity to negotiate with international buyers from around the globe. The project aims at increasing competitiveness, enhance international trade capability for Thai exporters to penetrate the overseas markets.

RING CO., LTD.

Product Description:

Bring back the essence of handicraft and local wisdom. Highlighting interesting materials and textures, the new collections combine with several mini collections to serve different moods and styles. Soft leather mixed with hand-loom Thai silk creates dual touching. Imitated animal skin together with Thai silk ikat offers a much stronger feeling. Pearl is used in finishing up the design to treat the stylish trend as well as to showcase the feminine mood. All items are lighter weight than ever, more elegant, and unique. The interlace of the leather strip recalls the core identity of Eleganza.

ASIA COLLECTION CO., LTD.

Product Description:

At Masaya, we specialize in brass furniture, all handmade from sculpting, to brass casting and polishing. Our designs stem from the simplest things in our everyday lives that we may tend to look over and nature that surrounds us. We develop those objects into furniture that are practical yet, diverse and give a new perspective to which ever object we were inspired from. The fluidity and harmonization of the design and the brass we specialize in, results in a unique and luxurious product that enhances every room or area the product is placed at. Since we hand make every piece, we are open for customization and bespoke products that clients may want or have to give everyone pieces that are more suited for their tastes and needs.

GREEN DOT BLUE

Product Description:

"Hoe te" is an eco-lifestyle product, furniture, and home decoration. Bloom is a new collection of eco-felt lamps, made from 100% recycled plastic bottles. Recycled felt should replace wool felt to help reduce plastic wastes and reduce wool farming. Wool causes climate change and animal cruelty. Bloom's collection is colorful eco lamps with many styles, that can use with many materials such as rubber wood, metal, aluminum, or stainless steel. Like a flower to make your room look bright, lively and lovely. Don't miss adding the bloom to your room. Besides the felt lamp, we have an eco-felt placemat and eco-felt partition that are also made from 100% recycled plastic bottles. Can custom-made for client patterns. Eco felt is better to replace wallpaper because most of the wallpaper is paper coated with vinyl which is not good for the environment. The moisture is wall stuck inside and grows mold. Eco felt is fire retardant and no allergic.

MODERNFORM GROUP PUBLIC CO., LTD.

Product Description:

A series of anywhere, anytime and any occasional sidekick tables are like your true friends whom you can trust and regularly hang around with. Given their qualities of light-weighted, easily movable, and space saving, the m.any tables can turn every public space to be your comfortable, relaxing, and familiar personal space, as well as support public use as hospitality furniture. They can reflect the true self of you through their unique appearances and working functions to address your personal lifestyles like a slogan "Your friends are a reflection of your own personality".

The m.any tables have been designed immaculately and impeccably through 'sustainable design' concept by using simple, uncomplicated line and curve. They are made merely from necessitated materials, not more or not less, but fulfil their multifunction full of use.

MOONLER COLLECTION CO., LTD.

Product Description:

SALMON Bench : Like a skillfully trained sushi chef filleting a fish, Salmon is built from one long log cut into 2 pieces for the top and 8 pieces for the legs. The symmetrical and simple shape maintains the essence and beauty of the raw materials. The humblest way a craftsman shows his respect for materiality.

PEBBLE Stool : A three-legged wooden stool that looks like the arrangement of rock to form a structure. This work was born from the skill and instinct of a master craftsman where designers give the artisan a chance to create works without a clear plan until becoming a piece that reflects the extreme woodwork craftsmanship. And the texture of the stool is not polished to be smooth. It is the intention of the designer who wants this piece to be able to express imperfections to reflect the work that was made by hand as much as possible. This will allow us to distinguish handicraft from industrial work.

NICE & SOLID DECORATION

Product Description:

All our furniture is made in Thailand from 100% genuine solid woods, that are harvested and replanted in a very sustainable way. Some are from the local forest and some are imported from Africa, Brazil, and the islands of India. We only use solid wood, no particle board or MDF combined. Your furniture arrives from our factory complete and ready to enjoy no assembly required. We have experience since 2000 making furniture to suit every taste. Take a look at our exclusive collections, which feature natural Hevea, Teak, and Acacia. And none of these are veneered.

NITHINAT CO., LTD.

Product Description:

The BiiN Plant Stand comes with a design inspired by the shape of a birdcage, which represents confinement but as the design of The BiiN, you can see that the birdcage has been opened from above and can be changed to multiple functions to use in many forms whether a plant pot, a shelf or a storage place. This makes the meaning of the opened birdcage conveyed as “flying and freedom”. BiiN Plant Stand is designed to be used in a variety of ways. Used for placing plant pots, use for extra storage, or as a side table next to the sofa. The pot holder is designed to look airy. For easy cleaning and care, the materials used are local rubber wood from the eastern part of Thailand, which is durable. It can be used for decades. The colors we use are also environmentally friendly and safe for users and workers. The design is rounded and suitable for users of all ages whether children or adults.

PIMPEN CO., LTD.

Product Description:

Lives cannot survive without nature especially water. Everyone has related to water since we were born. Water is the most important factor to be alive. In the past, Thai people had built their houses near the steam, canal, or river in order to travel easily by boat, to make a living; catching fish for meal including to serve agriculture until now. Moreover, enjoying our life with the river – children's jumping into the river with the big smiles, sitting under the tree to take a rest with gentle breeze near the river is still always the good happiness in our memories. THAN – meaning to water or we called in Thai as MAE-NUM-LUM-THAN. This sofa is representative of taking a rest near the river. It's unique of sewing all over this sofa persuades us fall into circulation of water. When we leave our body into the sofa, we can get feeling like floating on the water surface comfortably.

BILLION KIDS CO., LTD.

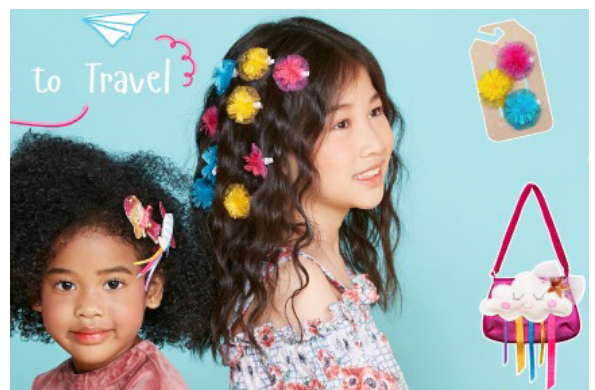

Product Description:

Billion Kids Co., Ltd. was established as a brand in 2015 following the tremendous initial success with our line of children's accessories including hair clips, headbands, bags, and non-toxic nail polish. The product line is continuously expanding, in line with our retail expansion in our core market. Sati is now represented in top retail locations such as Siam Paragon, King Power, Central, The Mall, and also 25 Hi-end kids shop in Bangkok. We also export to the USA, Sweden, Singapore, Scotland, UK and are now opening new markets to capture a growing share in the children's accessories business. Sati's products are handmade with love and all material have been tested and passed the safety standard of children's accessories in the USA (CPSIA standard). Mothers can be sure that all Sati products are safe and good for babies and kids. Moreover, we stitch all parts to prevent a small part from falling apart after use. Therefore, Mother doesn't have to worry about kids putting small objects in their mouths, which may become lodged in their throat and create a choking hazard.

PRODPRAN CRAFT

Product Description:

We are a home decorating and lifestyle product brand that all processes & products are made by local craftsmen from various communities in Thailand. We intend to preserve local craftsmanship skills by bonding them together and become a unique community “ProdPran Craft” which translates as “Favorite Craft” in Thai. Our goal is to support local communities to save the craft wisdom and forward them from generation to generation within their areas in a sustainable way. So, we collaborated with local senior artisans and a group of housewives, to be a part of supporting the growth of the local communities. Over 90% of our products were made from natural materials found in local craftsmen’s communities. They are biodegradable products that are produced with low-carbon processes which consume less energy and resources during production. Our products are the representative of heart and soul of local craftsmen in Thailand, which we believe wholeheartedly their power will pass on to all craft lovers around the world.

GLISTEN DESIGN CO., LTD.

Product Description:

Glisten, we have a passion for design and material experimentation. We believe that all materials have value and beauty themselves. The problem of plastic waste has increased in the past few years. Along with the fact that only a quarter is recycled. We would like to use those materials to create an upcycling process for environmental and quality products.

Glisten lifestyle and home decoration products, are the most creative, and unique. We design and develop replacement materials from the automotive industry into beautiful, durable, and fully functional materials through experimental design. Which contains the concept design style and brand-specific techniques. Production processes cooperate with handicrafts using craftsmanship. Glisten has a desire to help the environment and ultimately promote and drive handicrafts to an international level. Materials and processes to create our products with meticulousness and delicacy in selecting durable materials. Strong and environmentally friendly.

LABRADOR CO., LTD.

Product Description:

The design was inspired from the forming of 'Kratong'; a banana leaves container that widely used in the past in Thailand. The leaves were folded which forming 3D object and attached by clasping technique. Similar to REshopper, it is made from natural material – recycled genuine leather, which is environmentally friendly. The designers were inspired by the design of the ancient container, Krathong using natural materials, folded into 3D shapes, and interlocked with each other. Use natural materials that come in the form of genuine leather. Environmentally friendly and make another difference with the “joint” design that is clamshell. Designed specifically for use with REtable tray collections. Five sizes of sizes are available. This REtable tray collection has created a brand-new product inspired by ancient Thai wisdom. Make it look modern, functional and diverse.

LOYFAR COLLECTION CO., LTD.

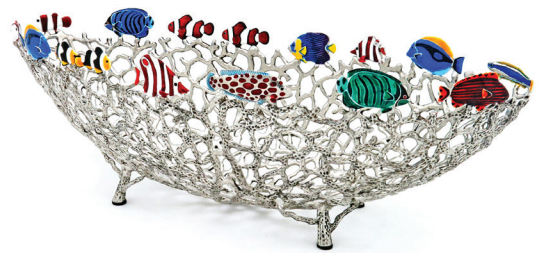

Product Description:

Loyfar Collection had its beginnings in 1996 when founded by Anuphab Loyfar, the Chairman and Principal of Loyfar International. Inspired by his surroundings and the beauty of nature, Loyfar's work combines an adaptation of free-form shapes together with jewellery making skills to create highly decorative yet functional works of art in pewter. With a keen eye for detail, Loyfar ensures that only the finest pieces of pewter that attract the visual senses are designed and crafted in the manufacturing facility in Chiangmai, North Thailand. To date, Loyfar Collection prides in having over 4,000 designs in its ensemble of collections, each distinct and celebrating handmade craftsmanship. With his abounding creativity, Loyfar and his team of skilled artisans, never cease to persevere to add new products to the existing collections of tableware, living and gift items to meet customers' growing expectations for unique pewter designs.

THOR GLOBAL CO., LTD.

Product Description:

"Puzzle" Contemporary Weaving Art from Thorr. Puzzle represents the wonder of oriental weaving art patterns in a contemporary way. A special series designed by Thorr aims to refer to the value through the progress of fiber weaving that stands for people's 'hope' throughout the business ecosystem with good intention. Every journey, effort, self-struggle, and trust among markets lead to the extension of weaving materials from the familiar 'sedge' in the cultural roots. Hand-woven mats in various patterns and techniques are created more interestingly by applying around the Plaswood block, then put them together along to reflect the interconnection. The result from this mat brings new needs and new perspectives to a market that used to be far from the 'sedge mat' we are accustomed to. Thorr wishes to grant the refinement, identity, and quality of weaving art, which from now on will be exquisitely created to deliver value as if every single piece contains the spirit of the artisan in every process to all people who love and trusts in Thorr. Going forward, looking for hope. Thorr never stops looking for that hope... to weave it to life.

TURN TO ART CO., LTD.

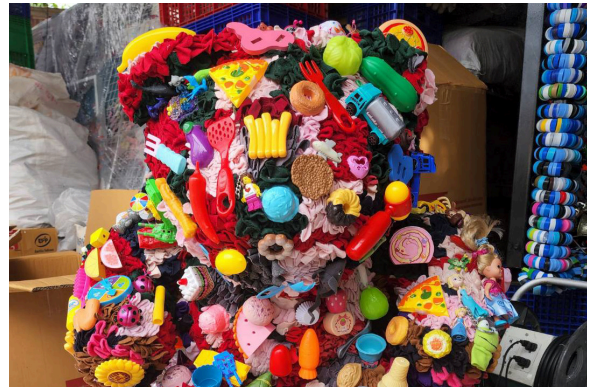

Product Description:

WISHULADA believes that nothing is useless and everyone has the potential to change wasted materials to be useable again. WISHULADA is an artist who would like to urge society by using arts to indicate the amount of waste that occurred and inspire everyone about the reused of wasted materials around us by creating effective with optimal benefits products. WISHULADA would like to be a mediator that awakens everyone's awareness of concern about an environmental issue and WISHULADA believes that the power of creativity comes from our thought and design of the production process from the beginning to the end. If an upstream can produce fewer waste materials and downstream, customers can reuse waste materials, it can make a sustainable for the future. Because the waste problem will be an issue that we will talk about for a length of time. This problem cannot be fixed just only a group of people everyone has an important duty to resolve this issue together and search a way to make environmental sustainability.

WASOO45 CO., LTD.

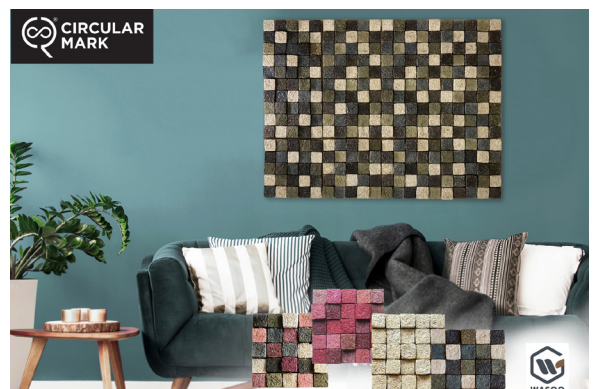

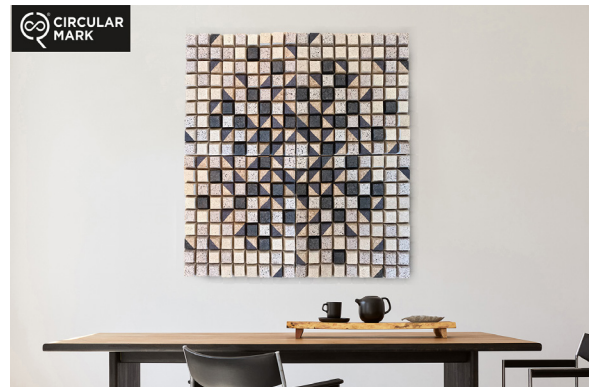

Product Description:

WASOO leads in creating sustainable 100% bio decorative materials for living and working space. Aiming to reduce PM2.5 air pollution and carbon emission from burning agricultural waste, we upcycle "Rice Straws" and "Coffee Husks" to create safer and environmentally friendly products for our consumers and the world we live in. Up-cycling acoustic decorative panels of the "From Zero 2 Zero" collection are made from rice straw and coffee husks that are uniquely beautiful textures. We use colors from herbs such as ebony and sappan. Rice straw bales are painted and coffee husks are dyed to achieve unique texture with all-natural beauty. This collection offers minimal color-way, easy to mix and match with your interior design of residential or working space. The sheets also contain a temperature control feature which helps to save energy, reduces electricity bills, and absorbs echo sound. It can be recycled and reused continuously before decomposed into nature so there is no waste to burden the world, hence the name "From Zero 2 Zero."
